

Greetings from your Lake Iroquois Association!

**We are ringing in 2026 by
falling in love with our lake!**

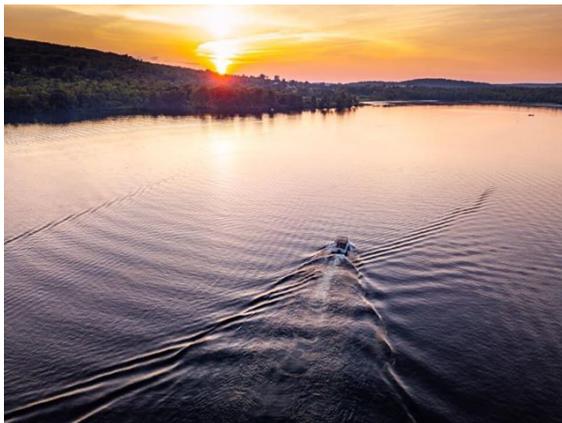

It's time to renew your membership!

Whether it's a quiet paddle, a summer swim, or a familiar shoreline view, Lake Iroquois gives us countless reasons to fall in love. Renew your membership and help care for the lake that means so much to all of us.

[Click here to renew your 2025 membership](#)

Exciting things are coming this year!

Be on the lookout for:

- Watercraft Greeter Program
- Annual Meeting: July
- Tentative Loon Talk with Eric Hansen

Check out our 2025 Aquatic Plant Survey!

Protecting our lake means staying ahead of invasive species like Eurasian watermilfoil. That's why we partner with an independent contractor to conduct regular plant surveys. See what we found in the 2025 survey by clicking the button below!

Fun Fact!

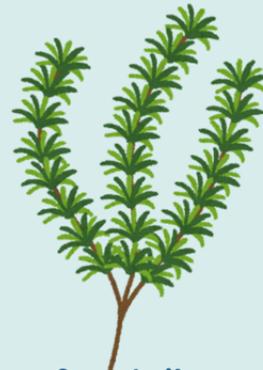

Did you know that in 2025, 72% of our sampling points contained at least 1 native species?

Broad-leaf Pondweed

White Waterlily

Coontail

This means, with continued efforts to reduce invasive species, we are on track to restore our native plant populations!

We remain committed to protecting and loving our lake, and you can spread the love by contributing a donation today!

Click [HERE](#) to help us maintain the health of our lake!

Thank you for being a member, and here's to another great year as a lake-loving community!
